RE: **PETITION NO. 1313** – DWW Solar II, LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, maintenance and operation of a 26.4 megawatt AC solar photovoltaic electric generating facility on approximately 289 acres comprised of 5 separate and abutting privately-owned parcels located generally west of Hopmeadow Street (US 202/CT 10), north and south of Hoskins Road, and north and east of County Road and associated electrical interconnection to Eversource Energy's North Simsbury Substation west of Hopmeadow Street in Simsbury, Connecticut.

Dear Attorney Hoffman:

The Connecticut Siting Council (Council) requests an update on the status of landscape plantings and barn repairs at the above referenced facility site. As indicated in your June 30, 2021 correspondence to the Council, DWW Solar II, LLC intended to provide a supplemental report documenting new landscape plantings at the facility site to the Council by November 30, 2021; however, no such report has been submitted to date.

Please submit the supplemental landscape report and an update on the status of the barn repairs by March 31, 2022.

Thank you for your attention and cooperation.

Sincerely,

A handwritten signature in black ink, appearing to read "Melanie A. Bachman".

Melanie A. Bachman  
Executive Director
